

Name: _____ Date: _____

DIRECTIONS: Use the suggestions from your fall grades to make a list of your plans for pursuing your Academic Goals (strategies that will help me in this pursuit?). List courses (Current and future for this year). Fill in your first and second semester courses (if you have completed your first semester courses, leave that section blank). List the goals you have for each course under the column on the right. Come up with specific goals and try to have two or three goals per class.

First Semester Courses

Goals for Course

Second Semester Courses

Plans for Pursuing my Internship Goals

You will now be developing goals for your future internship work. Take your time filling this out and be thoughtful. It is often challenging for students to write down goals for this section, but think about what you do at your site and what would be appropriate.

Internship site (where are you presently) _____

Name: _____ Date: _____

Site Responsibilities

What do you need to do to successfully complete your site responsibilities for this year?

Future site

List the kinds of sites that interest you for next year (where do you see yourself working). Think about what kinds of skills you need and want to develop? What skills do you have that will help you fit into future sites?

Strategies and resources needed

What do you need to accomplish your internship site goals?

Strategies and resources needed

Look back at your Personal Goals for this section. Thoughtfully answer the question below.
What do you need in order to accomplish your Personal Goals?

Next Year

What do you need to accomplish your goals into the future?
